The Laboratory Animal Welfare Training Exchange is an organization of trainers from the United States and abroad that have joined in the common goal to share information and training ideas. Developing training programs can be a costly venture not only in materials, but also in the time invested to create them. Through the LAWTE, organization members can share their experience and knowledge with others to save time, money, and duplication of effort.

**MISSION STATEMENT**

The Laboratory Animal Welfare Training Exchange aims to promote an information exchange among laboratory animal welfare trainers on training programs, systems, materials and services for the purpose of promoting the highest standards of laboratory animal care and use.
